Experimental Lung Research

Volume 16 1990

Contents

Number 1

PAUL J. A. BORM AND PETER TH. HENDERSON
Symposium on Health Effects of Occupational Exposure to Inorganic Dusts 1

MARC P. M. VAN SPRUNDEL
Pneumoconioses: The Situation in Developing Countries 5

JAN M. M. MEIJERS, GERARD M. H. SWAEN, KEES VAN VLIET, AND PAUL J. A. BORM
Epidemiologic Studies of Inorganic Dust-Related Lung Diseases in The Netherlands 15

E. F. M. WOUTERS
Total Respiratory Impedance Measurement by Forced Oscillations: A Noninvasive Method to Assess Bronchial Response in Occupational Medicine 25

CORNELIS J. A. DOELMAN, ROB LEURS, WILLEM C. OOSTEROM, AND AALT BAST
Mineral Dust Exposure and Free Radical-Mediated Lung Damage 41

PAUL J. A. BORM, JAN M. M. MEIJERS, AND GERARD M. H. SWAEN
Molecular Epidemiology of Coal Worker's Pneumoconiosis: Application to Risk Assessment of Oxidant and Monokine Generation by Mineral Dusts 57

PHILIPPE LASSALLE, PHILIPPE GOSSET, COLETTE AERTS, ERIC FOURNIER, JEAN JACQUES LAFITTE, JEAN MARC DEGREEF, BENOIT WALLAERT, ANDRÉ BERNARD TONNEL, AND CYR VOISIN
Abnormal Secretion of Interleukin-1 and Tumor Necrosis Factor α by Alveolar Macrophages in Coal Worker's Pneumoconiosis: Comparison between Simple Pneumoconiosis and Progressive Massive Fibrosis 73

Number 2

DAVID B. WARHEIT AND MARK A. HARTSKY
Species Comparisons of Proximal Alveolar Deposition Patterns of Inhaled Particulates 83

W. STROHMAIER, H. REDL, AND G. SCHALG
Studies of the Potential Role of a Semisynthetic Surfactant Preparation in an Experimental Aspiration Trauma in Rabbits 101

JACQUES RAMI, LAURENT BRONDEL, DANIEL REVIÈRE, AND JEAN-PAUL BESOMBES
Effect of Quinacrine on Lipid Content of Bronchoalveolar Lavage Fluid in Guinea Pigs Sensitized to Ovalbumin 111

ANTHONY A. HAYES, THIERRY J. VENAILLE, ALISON H. ROSE, ARTHUR W. MUSK, BRUCE W. S. ROBINSON
Asbestos-Induced Release of a Human Alveolar Macrophage-Derived Neutrophil Chemotactic Factor 121

ANDREA PETTENAZZO, ALAN H. JOBE, MACHIKO IKEGAMI, EVELYN RIDER, STEVEN R. SEIDNER, AND TAKAKO YAMADA
Cumulative Effects of Repeated Surfactant Treatments in the Rabbit 131

THOMAS B. ZELTNER, MARZIA BERTACCHINI, ANDREAS MESSERLI AND PETER H. BURRI
Morphometric Estimation of Regional Differences in the Rat Lung 145

Number 3

ANDREW CHURG, JOANNE L. WRIGHT, AND BONNIE STEVENS
Exogenous Mineral Particles in the Human Bronchial Mucosa and Lung Parenchyma. I. Nonsmokers in the General Population 159

FRANS J. WALTHER, IRENE M. KUIPERS, ZDENA PAVLOVA, DIRK WILLEBRAND, ABRAHAM ABUCHOWSKI, AND ANNA T. VIAU
Mitigation of Pulmonary Oxygen Toxicity in Premature Lambs with Intravenous Antioxidants 177

CANDYCE I. SMITH, ROBERT L. SEARLS, AND S. ROBERT HILFER
Effects of Hormones on Functional Differentiation of Mouse Respiratory Epithelium 191

STEPHEN E. ALPERT, CONSTANCE M. KRAMER, JOHN R. BRASHLER, AND MICHAEL K. BACH
Generation of Lipoxygenase Metabolites of Arachidonic Acid by Monolayer Cultures of Tracheal Epithelial Cells and Intact Tracheal Segments from Rabbits 211

R. A. TOBEY, J. G. VALDEZ, Y. E. VALDEZ, AND B. E. LEHNERT
Proliferation of Rat and Human Lung Fibroblasts Following Exposure to Prostaglandin E_2 235

B. A. DUBAYBO, G. S. MARWAH, S. E. G. FLIGIEL, J. S. HATFIELD, AND A. P. N. MAJUMDAR
Tyrosine Kinase Activity during Lung Injury, Fibrosis, and Compensatory Lung Growth 257

ALI R. TABASSIAN, ERIC S. NYLEN, LORINC LUKACS, MARIE M. CASSIDY, AND KENNETH L. BECKER
Cholinergic Regulation of Hamster Pulmonary Neuroendocrine Cell Calcitonin 267

K. CHUL KIM AND B. N. SINGH
Hydrophobicity of Mucin-Like Glycoproteins Secreted by Cultured Tracheal Epithelial Cells: Association with Lipids 279

KENJI TANI, SUSUMU YASUOKA, FUMITAKA OGUSHI, TOSHIO OZAKI, NOBUYA SANO, AND TAKESHI OGURA
Cytotoxic Factor for Fibroblasts in Bronchoalveolar Lavage Fluid of Bleomycin-Treated Rats 293

Number 4

JOHN M. FIASCONE, MARK R. MERCURIO, DAVID M. LIMA, AND HARRIS C. JACOBS
Corticosteroids and Intratracheal Surfactant Both Alter the Distribution between the Airways and Lung Tissue of Intratracheally Administered Radiolabeled Phosphatidylcholine in the Preterm Rabbit 311

STEPHEN K. DURHAM AND WILLIAM M. SELIG
Pathophysiologic Changes Induced by Phospholipase A_2 in the Isolated, Perfused Guinea Pig Lung 323

MARK L. WITTEN, RONI GRAD, STUART F. QUAN, RICHARD E. SOBONYA, ANDREA K. HUBBARD, R. C. LANTZ, L. AMANDA LENTZ, LINDA C. DEVINE, AND RICHARD J. LEMEN
Piriprost Pretreatment Attenuates the Smoke-Induced Increase in ^{99m}TcDTPA Lung Clearance 339

CLAIRE M. DOERSCHUK, MICHAEL F. ALLARD, AND MANUEL J. OYARZUN
Evaluation of Reexpansion Pulmonary Edema Following Unilateral Pneumothorax in Rabbits and the Effect of Superoxide Dismutase 355

HELEN OPASKAR HINCMAN, K. RAMAKRISHNAN BHASKAR, DONNA DeFEUDIS O'SULLIVAN, ROBERT BROWN, AND LYNNE REID
Lipids in Airway Mucus of Acute Quadriplegic Patients 369

Number 5

BASIM A. DUBAYBO AND LYN A. THET
Effect of Transforming Growth Factor Beta on Synthesis of Glycosaminoglycans by Human Lung Fibroblasts 389

MICHAEL P. FLAVIN, LANCE A. PARTON, AND C. MICHAEL BOWMAN
Conditioned Medium from Irradiated Bovine Pulmonary Artery Endothelial Cells Stimulates Increased Protein Synthesis by Irradiated Bovine Lung Fibroblasts In Vitro 405

G. CAMUSSI, J. R. BRENTJENS, G. ANDRES, AND P. R. B. CALDWELL
Lung Injury Mediated by Antibodies to Endothelium. III. Effect of Chlorpromazine in Rabbits 423

CHRISTOPHER B. DANIELS, HEATHER A. BARR, JOHN H. T. POWER, AND TERENCE E. NICHOLAS
Body Temperature Alters the Lipid Composition of Pulmonary Surfactant in the Lizard *Ctenophorus nuchalis* 435

BRUCE E. LEHNERT, JEANELLE B. ORTIZ, JERRY E. LONDON, YOLANDA E. VALDEZ, ANNE F. CLINE, ROBERT J. SEBRING, AND GARY L. TIETJEN
Migratory Behaviors of Alveolar Macrophages During the Alveolar Clearance of Light to Heavy Burdens of Particles 451

SHYAMALI MUKHERJEE, SUTAPA NAG, AND SALIL K. DAS
Gestational Variation of Glycerophosphate Acyltransferase Activity in Maternal Guinea Pig Lung and Possible Role of Thyroid Hormone in Its de Novo Synthesis 481

YASUHARU ABE, TOMIYASU TSUDA, AND TORU OKAJIMA
In vitro Angiotensin-Converting Enzyme and Interleuken-1 Production by Epithelioid Cells Isolated from Induced Rabbit Lung Granuloma 489

LUISA DIOMEDE, MARIA TERESA TACCONI, SILVANO AGOSTI, AND MARIO SALMONA
Fluorescence Polarization Changes with Gestational Age in Amniotic Fluid of Rabbit and Guinea Pig 507

JAY Y. WESTCOTT, JAN HENSON, IVAN F. McMURTRY, AND RICHARD F. O'BRIEN
Uptake and Metabolism of Endothelin in the Isolated Perfused Rat Lung 521

DALLAS M. HYDE AND SHRI N. GIRI
Polyinosinic-Polycytidylic Acid, an Interferon Inducer, Ameliorates Bleomycin-Induced Lung Fibrosis in Mice 533

YIH-LOONG LAI AND LOUIS DIAMOND
Inhibition of Porcine Pancreatic Elastase-Induced Emphysema by Eglin-c 547

Number 6

JEFFREY M. CHEEK, KWANG-JIN KIM, AND EDWARD D. CRANDALL
NO_2 Decreases Paracellular Resistance to Ion and Solute Flow in Alveolar Epithelial Monolayers 561

MARK J. REASOR, CANDACE L. OGLE, AND PHILIP R. MILES
Response of Rat Lungs to Amiodarone: Preferential Accumulation of Amiodarone and Desethylamiodarone in Alveolar Macrophages 577

MAURIZIO M. ANCESCHI, BENGT ROBERTSON, LORENA BROCCUCCI, ANTONELLA BARBATI, GERTIE GROSSMANN, LENNART HEDENBORG, EVA LUNDBERG, ADRIANO PETRELLI, GIUSEPPE ZACCARDO, AND ERMELANDO V. COSMI
Immunochemical and Immunohistochemical Evaluation of Lung Permeability in Ventilated Newborn Rabbits 593

KATHLEEN A. KENNEDY, JEANNE M. SNYDER, WENDY STENZEL, KOTARO SAITO, AND JOSEPH B. WARSHAW
Vitamin E Alters Alveolar Type II Cell Phospholipid Synthesis in Oxygen and Air 607

LAWRENCE B. PLISS, EDWARD P. INGENITO, AND ROLAND H. INGRAM, JR.
Baseline Lung Function and Inflammatory Indices in Guinea Pigs: Effects of Growth, Repeated Lavage, and Orotracheal Intubation 617

RAJAMMA MATHEW, DOROTHY E. GUZOWSKI, AND ELIZABETH S. GLOSTER
Effect of Verapamil on Monocrotaline-Induced Pulmonary Artery Hypertension and Endothelial Cell Dysfunction in Rats 627

EUNICE I. BLOOMQUIST AND RICHARD M. KREAM
Release of Substance P from Guinea Pig Trachea Leukotriene D_4 645

DUNCAN F. ROGERS, ERIC W. F. W. ALTON, ANN DEWAR, DUNCAN M. GEDDES, AND PETER J. BARNES
Tracheal Potential Difference in the Reserpine and Isoproterenol Rat Models of Cystic Fibrosis 661

MICHAEL V. PINO, FLETCHER F. HAHN, AND JOHN A. PICKRELL
^{89}Strontium-Induced Bone Marrow Depression Suppresses the Early Inflammatory Response and Fibrosis Caused by Intratracheal Bleomycin 671

MARK D. ENGLEN, STEPHEN M. TAYLOR, WILLIAM W. LAEGREID, RONALD M. SILFLOW, AND R. WES LEID
The Effects of Different Silicas on Arachidonic Acid Metabolism in Alveolar Macrophages 691

S. T. HOFFSTEIN, P. E. MALO, P. BUGELSKI, AND E. B. WHEELDON
Leukotriene D_4 (LTD_4) Induces Mucus Secretion from Goblet Cells in the Guinea Pig Respiratory Epithelium 711
